

# XPLORE

## CORPORATE PROFILE

Established in 1996, Xplore Technologies Corp. is the number two provider of rugged tablet PCs worldwide\*. With its recent acquisition of the Motion product line, the company now delivers the broadest range of rugged Windows and Android tablet solutions available in the market.

The company's award-winning tablet PCs are among the most powerful and longest lasting in their class – able to withstand nearly any hazardous condition or environmental extreme – and are purpose-built for the unique workflow demands of critical industries including oil & gas, utilities, telecommunications, government, military, public safety, manufacturing, distribution and healthcare. Xplore's products are sold and serviced on a global basis across the Americas, Europe, Middle East, Africa, and Asia Pacific regions.

For more information, visit the Xplore Technologies website at [www.xploretch.com](http://www.xploretch.com) and for Xplore Motion products, [www.motioncomputing.com](http://www.motioncomputing.com).

### Utility / Field Service Solutions

Rugged, lightweight, highly mobile and built for business, Xplore Tablet PCs maximize productivity through real-time access to data at the point of service, improving efficiency, accuracy and overall performance.

### Public Safety Solutions

Designed to stand up to wear, tear, inclement weather and more – Xplore delivers the integrated features that make mobile work easy, along with access to back-office information and the real-time intelligence that public safety workers need to keep us all safer.

### Manufacturing Solutions

Transform your manufacturing operations with Xplore Tablet PC solutions and streamline plant floor processes, accelerate the delivery of business information to the front lines, manage factory scheduling, refine maintenance planning, improve workforce scheduling and more.

### Healthcare Solutions

Xplore Tablet PCs enhance patient care by improving workflows through real-time access to patient information, while offering the durability, portability, security, disinfectability and power required in demanding, fast-paced clinical environments.

### Retail Solutions

Xplore Tablet PCs maximize retail productivity from inventory management to point-of-sale computing, reducing abandonment rates, improving transaction times and increasing overall productivity. Whether processing payments or managing warehouses, Xplore significantly improves retail performance.

## Why Choose Xplore?

- Broadest rugged tablet solutions offering
  - IP52 to IP67, Windows or Android
- 18 years making only rugged tablets
  - 27 tablet platforms launched
  - 38 US patents granted
- #1 in the "ultra-rugged" tablet market WW
  - #2 in "rugged" tablets WW
- Global footprint
